

Step-by-Step Installation Guide

This guide provides complete instructions to set up GSW ConnectBot and AccuSpeech® on an Android device, along with the AccuSpeech® SDK and GSW LADS License Server on Windows.

01 Prerequisites

- Android 8.0 or higher
- Windows 10 or 11
- Google Text-to-Speech (TTS) enabled
 - The runtime relies on the built-in Google TTS included with GMS on most Android devices.
 - Ensure every language you intend to use is available.

02 File Layout

Copy the **AccuSpeech®** folder into the root directory of the Android device so that /AccuSpeech® is at the same level as /Download and /Android.

This folder contains:

- **Models** – Voice recognition engines
- **Registry** – Settings for the AccuSpeech® runtime
- **Voice Projects** – Project files and 510Connectbot connection file

03 AccuSpeech® Installation (Android)

1. Install **AccuSpeech®-6.0.0-32.release.voice.apk**.
2. Launch **AccuSpeech® Runtime** and accept all permissions.
3. *(Optional)* Force close the runtime.

04 GSW ConnectBot Installation (Android)

1. Install **GSW Connectbot-2.9.337.apk**.
2. Launch **GSW Connectbot** and accept all permissions.

05 AccuSpeech® SDK Installation — Windows

1. Run **AccuSpeech® Studio_V6.0.0.32_4aa86927a260.msi** on Windows 10/11.
2. Install **Microsoft Visual Studio Code**.
 - Search for the **AccuSpeech® extension**.
 - Enable the extension.

06 GSW LADS License Server Installation (Windows)

1. Run **GeorgiaSoftWorksLADS-1.41.043** installer.
2. Follow the steps in the official installation guide:
[GSW ConnectBot – LADS Installation Documentation](#)

Installation Checklist

ANDROID DEVICE

- AccuSpeech® folder copied to root
- AccuSpeech® Mobile APK installed
- Runtime launched & permissions accepted
- GSW ConnectBot APK installed
- ConnectBot launched & permissions accepted

WINDOWS MACHINE

- AccuSpeech® SDK MSI installed
- Visual Studio Code installed
- AccuSpeech® VS Code extension enabled
- GSW LADS License Server installed
- LADS configuration completed

All necessary files are available here: [AccuSpeech® & GSW Installation Files](#)
